2018 CQ WW Rules Updated

Effective with the 2018 contest, there have been some modifications to the CQ WW rules developed and approved by the contest committee. In summary:

- **Busted Call/NIL penalty is reduced from 3X to 2X.** This reflects a more reasonable approach to errors, while simultaneously providing a continued incentive to maintain accurate logging during the contest.
- **All CW and SSB email address references for log submissions have been removed.** While historical submission methods (e.g., e-mail, paper logs) will still be accepted in the near-term, the committee strongly prefers that Web uploads be the method of sending us your log. Note that the Web upload of logs (including format checking) is available at <cqww.com/logcheck/>.
- **The 10X penalty for rubber clocking with MS/M2 entries has been eliminated.** Be advised that the committee will continue to vigorously pursue time abuses for these categories using a number of sophisticated analysis tools at our disposal.
- **The observer program has been eliminated.** Given the absence of a reasonable pool of volunteers and supporting funding, the program has proven to be impractical.
- **The top entry in the Rookie category will be awarded to the winner on a one-time only basis.** Previous Rookie winners are ineligible for plaques in this category.
